-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --  
**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## **DETAILED ACTION**

### ***Election/Restrictions***

1. Claims 15-18 withdrawn from further consideration pursuant to 37 CFR 1.142(b), as being drawn to a nonelected invention, there being no allowable generic or linking claim.

Applicant timely traversed the restriction (election) requirement in the reply filed on April 14, 2008.

### ***Claim Rejections - 35 USC § 102***

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

3. Claims 1-6, 8-14 and 19-37 are rejected under 35 U.S.C. 102(c) as being anticipated by Janssen (20040075544).

Janseen discloses a device for detecting and locating objects comprising a 3-D camera 22, 24, 26, 28, 30, 32, 34 for recording three-dimensional situation images of a space which is to be monitored (see paragraph [0038]); first means for evaluating the three-dimensional situation images by means of suitable object detection methods for determining an object which is present in the space which is to be monitored, and for determining the position of the object in the space; a 2-D camera 12 (see paragraph [0035]) for recording two-dimensional situation images of that region of the space which is to be monitored, in which the position of the object has been determined; and second means for evaluating the two-dimensional situation images by means of

suitable object detection methods for redetermining the object which is present in the space which is to be monitored. The first means for evaluating the three-dimensional situation images and the second means for evaluating the two-dimensional situation images are implemented in a common processor unit 36. The 3-D camera and the 2-D camera are arranged directly adjacent to one another. The 3-D camera and the 2-D camera are arranged in a common housing, that is the vehicle, as broadly recited. The 3-D camera and the 2-D camera operate in the same spectral region. The spectral region comprises an infrared region. Regarding claims 19-37, Janseen teaches the device may be used as a pre-crash sensor system (see paragraph [0026]).

#### ***Allowable Subject Matter***

4. Claim 7 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

#### ***Conclusion***

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
